HyperStudio® 3.3

New!

Multimedia-writing is becoming as fundamental a skill as word processing. That's why multimedia writers of all ages are using one program, **HyperStudio®**, to create their own multimedia reports, projects and presentations. Virtually any multimedia element can be added to a HyperStudio project in under 60 seconds-including text, graphics, animations, sounds, video, and Internet links. Best of all, HyperStudio is an easy-to-use, full-featured multimedia authoring tool that offers power and creativity, and the opportunity to design original interactive projects and presentations from scratch!

Key Features

- Add more than 200 MB of "copyright-friendly" sample animations, clip sounds, clip art images, QuickTime® and QuickTime VR movies
- Add text, and it spell checks it too!
- Create hypertext links
- Record sounds within projects
- Use the full-featured paint functions to create your own art
- Add pizzazz with frame and path-based animations, gradients, PhotoShop™ plug-in support, versatile transitions, and more
- Record and edit your own movies
- Capture images directly from a camcorder (requires video digitizer) or digital camera
- Works with QuickTime VR panorama and object movies
- Easily launch Internet sites right from presentations or student projects
- Share the same project between Macintosh, Windows and the Internet

HyperStudio users group on Educast™,
the first Internet news and information service for educators.

HYPERSTUDIO[®] 4

MULTIMEDIA THINKING TOOL[™] FOR INTERACTIVE LEARNING[™]

NEW
Mac/Win
CD-ROM

From the beginning HyperStudio[®] has been designed specifically for the classroom...

In over 5,000 school districts and over 1,000 universities HyperStudio[®] helps teachers and students address ISTE's National Educational Technology Standards for both K-12 students and students in colleges of education. In HyperStudio[®] 4 we've added:

- **New!** Extensive curriculum Media Library with 125 new sound clips and over 1800 updated graphics and photos
- **New!** Teacher's Guide packed with project ideas, curriculum guidelines and add-on resources

HyperStudio[®] 4, packed with dozens of new features, is now easier than ever...

Beginner and power users alike will love the new additions.

- **New!** Drag-and-Drop technology for quick design
- **New!** Ready Made Cards for getting started
- **New!** Printed Storyboards for easy project planning and assessment
- **New!** Special effects, enhanced transitions, transparent graphics, and more
- **New!** HyperLogo "click programming" for enhanced program control

Students using multimedia are discovering HyperStudio[®] 4 goes way beyond the typical presentation software...

Not limited by wizards or pre-made graphics, students can create highly interactive multimedia reports, projects and presentations. HyperStudio[®] 4, now more than ever, encourages limitless collaboration over the Internet.

- **New!** "HyperStudio Browser Plug-in" allows others to edit stacks directly within a browser without requiring the full program
- **New!** "Stack-to-Go" to easily share projects with friends and family
- **New!** "Go-to-URL" and Auto URL get to the Web quicker than ever

*Must already own a 15 CD multi-user pack to be eligible for add-on New Station Licensing. **Free upgrade available through Knowledge Adventure with proof of purchase of HyperStudio[®] 3.3 dated 5/1/00 or later. Must request upgrade by 1/31/01.
